

Course Description/Rationale/Overview:

Class Requirements:
Materials/textbooks/equipment

Safety Glasses
(Replacement cost \$5.00)

Recommendations:
Bring safety glasses to each class or store them in the classroom.

Missed Tests and Late Assignments

Students are to be present for test dates. There must be a verified, valid reason when a test is missed. The teacher may provide an alternative opportunity for testing or record an "absent" for that test.

All summative assignments will have a clear *Due Date*. Assignments that are handed after the *Due Date* will be accepted and assessed by the teacher if submitted prior to the *Deadline*. The *Deadline* is defined as the class period in which that graded assignment is returned to the class, unless there are extenuating circumstances.

For the mid-term report, no mark will be recorded for a missed summative assignment. Where a student has not submitted enough work for the teacher to determine the student's level of achievement the report card will indicate that the student's work is incomplete and no grade will be assigned.

At the semester end, where summative assessments are incomplete, a mark of zero may be assigned and used to calculate the student's final grade.

Assessment Strategies

Shop safety and safe use of shop tools
Daily Logs: To be completed on a daily basis
Projects and Assignments: Practical and written assignments will be assigned with in each unit of study
Literacy and Numeracy: Students will be required to answer questions orally as well as written.
Quizzes and tests: Students will be challenged with a quiz on a weekly/bi-weekly basis
Presentations: Students will present their project(s) to the class in an oral or practical manner

Achievement Categories

Knowledge/Understanding
Thinking/Inquiry
Communication
Application
Exam

Curriculum strands:

Shop Safety
Safe hand tool usage
Safe power tool usage
Machine Skills
Modes of transportation

Learning Skills:

Works Independently
Team work
Initiative
Organization

Evaluation The year's work will be based on:

- Quizzes
- Assignments/Project
- Culminating Task
- Exam

Technology Education involves knowing, doing, testing, designing, building and evaluating. Students will use projects as a major means of achieving these expectations. Health and Safety and understanding the expectations of the workplace are of great importance in Technology courses. Students must attend regularly in order to demonstrate achievement of the application and communication expectations.

FINAL MARK

Year's Work: 70%
Application Assignments....40%
Knowledge Understanding Assignments....30%
Communication Assignments...15%
Thinking Inquiry Assignments....15%

Final Summative Evaluation: 30%
The final summative evaluation will be a combination of:
Culminating Activity.....15%
Final Exam.....15%
